Calling all STEM Ambassadors!

The North Dakota Space Grant Consortium (NDSGC) is excited to announce the 2016-2017 Science, Technology, Engineering, and Math (STEM) Ambassador program for undergraduate and graduate students. A STEM Ambassador will assist NDSGC with public outreach events, hands-on projects, and K-12 educational activities. Students will earn $12 per hour, working approximately 40-50 hours per semester. Students must be self-motivated and passionate about STEM education.

STEM Ambassadors will be required to visit the UND campus and attend a training session in the fall where they'll receive instruction on how to conduct these numerous STEM lesson plans. Students should feel comfortable visiting K-12 schools on their own and leading these activities. STEM Ambassadors will work individually, with other STEM Ambassadors, or with the NDSGC team, depending on the type of outreach event. Education students are highly encouraged to apply.

Requirements:

In order to work as a STEM Ambassador, students must:

- Be enrolled at an NDSGC affiliated college or university.
- Have a GPA of at least a 3.0
- Be pursuing a degree in Education or a STEM field.

How to Apply:

Please visit ndspacegrant.und.edu/applications/stem-ambassadors-form to apply. Please include:

- One-page essay, describing why you would be a great addition to the NDSGC STEM Ambassador team and any past education/public outreach experience
- Letter of recommendation from a faculty member
- Unofficial transcript

Deadline: Friday, September 2, 2016  Training session: Saturday, September 17, 2016
