

II. 5. Academic Flight Course Policy – Crewed Aircraft Flight Courses

Revision Date: February 2026

Next Revision Due: June 2027

OPR: Associate Chair, Department of Aviation

Applicable Flight Courses: Aviation 102, 142/143, 220, 222, 241/242, 247, 323, 324, 325, 414, 415, 440, 444/445, and 480.

Explanation of Changes

- February 2026 – this revision has two updates:
 - Added statements for incoming students regarding an August 1st deadline to have private pilot certificate obtained
 - Deleted reference to Avit 221 and reference to effective Fall 2025
- October 2024 – this revision has three updates:
 - Clarified and corrected ambiguous and/or incorrect language found in the policy.
 - Updated information that applies to non-U.S. citizens.
 - Included information regarding the Aviation Management degree to reflect changes to the degree program.
- February 2024 – this revision has three updates:
 - Included Avit 220, Enhanced Basic Attitude Instrument Flying, in the policy to reflect upcoming changes to the course catalog.
 - Removed Retaking Academic Flight Courses as there is a separate policy that addresses this.
 - Terminology have been corrected/updated.
- October 2023 – this revision has five updates:
 - Revised information regarding the deadline for meeting prerequisites to match information posted on UND Aerospace website under Flight Course Enrollment.
 - Removed information regarding Avit 102's medical certificate as this covered under II.8 Medical and Pilot Certificate Requirements policy.
 - Included Avit 324 and Avit 399 (Seaplane Rating Course) as courses that can be concurrently taken with other manned airplane classes to reflect current TCOs.
 - Expanded guidance on eligibility for students retaking class, specifically with regards to registering for the class to be retaken.
 - Reassigned reference to the Assistant Chair of Flight Academics as this position no longer exists.
- September 2022 – this revision has two updates:
 - Changed all reference of weighted GPA to unweighted GPA as this is consistent with University policy.

UNCONTROLLED COPY WHEN DOWNLOADED OR PRINTED

CHECK THE MASTER LIST TO VERIFY THAT THIS IS THE CORRECT REVISION BEFORE USE

- Removal of Change of Major process as this was moved to a memo and will be handled procedurally as it is a process and not a policy.
- October 2021 – this revision has two updates:
 - The first revision is an update to adjust the GPA threshold for priority enrollment into a fall semester Avit 102. In order to manage year-to-year enrollment trends, it is necessary to adjust the GPA threshold accordingly. This change empowers the Department Chair to adjust the incoming GPA minimum each year in response to capacity and enrollment trends.
 - The second revision places restrictions on transferring into the Commercial Aviation, Unmanned Aircraft Systems, and Aviation Management degrees from any other degrees within the institution.
 - **Reason:** These changes are being added to manage enrollment and facilitate the enrollment cap that is being instituted for the Fall 2022 semester.
- February 2021 – this version is an update to clarify the Avit 102 registration priority, align policies for non-U.S. citizens with established procedures, and remove reference to special registration procedures for Avit 480.
 - **Reason:** Due to an increase of students admitted for summer and spring semesters, clarification was needed to ensure the Avit 102 registration priority applies to all semesters. Additionally, clarification was needed on the use of unweighted High School GPA and rounding of High School GPA in the Avit 102 registration priority. Furthermore, additional detail was required to explain the requirements for non-U.S. citizens. Finally, registration for Avit 480 now aligns with all other flight courses, eliminating the need for reference to a special procedure.
- July 2020 – this version is an update to remove reference to ACT/SAT scores in the eligibility requirements for flight course enrollment.
 - **Reason:** The State Board of Higher Education decided to “temporarily waive the requirement of standardized test scores (ACT or SAT) that are normally submitted as part of the application process for admission to North Dakota’s eleven colleges and universities.” This temporary change will be in place through the summer of 2022. As such, all reference to ACT/SAT scores have been amended to account for this change.
- March 2020 – this version is an entire re-write of the existing policy and therefore will be considered a new, original version of this policy.
 - **Reason:** This policy was developed to guide UND Aviation students, faculty, and staff on the handling of academic course grading and administration procedures for manned, aircraft flight courses.

1. Prerequisites to Flight Courses

- a. All aviation majors – including transfers – must have a minimum cumulative and institutional grade point average (GPA) of 2.6 to register in Aviation 102, Aviation 142, Aviation 143, and all 200-level and above aviation courses.

UNCONTROLLED COPY WHEN DOWNLOADED OR PRINTED

CHECK THE MASTER LIST TO VERIFY THAT THIS IS THE CORRECT REVISION BEFORE USE

NOTE: This does NOT apply to first semester UND students who do not have a college GPA.

- b. Students must satisfactorily complete prerequisite ground school and flight training courses prior to conducting any training in a subsequent flight course. Satisfactory completion is defined as achieving an academic grade of “C” or higher in the ground school and all flight lessons, flight hour requirements, and FAA Practical Tests have satisfactorily been completed.
- c. Prerequisites must be met by the deadline posted on the UND Aerospace website under Flight Course Registration.
- d. Students need to have all financial arrangements in place so that they are ready to begin flight training by the first date of class shown in Campus Connection. Should a student’s flight progress be impeded due to financial constraints, there will not be any accommodations made to flight course progress requirements. Students should refer to the syllabus for the flight course they are taking for details regarding minimum flight course progress.

2. Non-U.S. Citizen Students Enrolling in UND Aviation Flight Training Courses

- a. FAA Aviation English Language Standard (AELS) evaluation is required for non-U.S. citizens that intend to conduct flight training at UND. To initiate the AELS evaluation, students are required to contact the Avit 102 Course Manager. The AELS evaluation will be conducted in accordance with the current version of FAA Advisory Circular (AC) 60-28.
 - 1. Students who meet the standards listed in the AC will be approved to enroll in their flight training course at UND assuming all other non-U.S. citizen requirements are met.
 - 2. Students who do not meet the standards listed in the AC will not be permitted to enroll in flight training courses at UND.

NOTE: U.S. Permanent Residents (“Green Card” holders) are exempt from the AELS evaluation requirement.

- b. All non-U.S. citizen students, including U.S. Permanent Resident students must register online with the Transportation Security Administration (TSA) Flight Training Security Program (FTSP).
 - 1. Students must have received clearance to begin flight training through the TSA FTSP by the first date of class shown in Campus Connection.

NOTE: Students who do not have TSA approval by day one of classes will be dropped from the course.

2/2/2026

2. Students are responsible for maintaining their TSA approval status throughout their flight training at UND.
3. See the UND Aerospace website for additional information for non-U.S. citizens.

3. Registration in Flight Courses

- a. The process for registering for an airplane flight course is outlined on the UND Aerospace website under Flight Course Registration.

NOTE: Incoming students will register in accordance with processes established by the Aerospace Success Center, Aviation Department, and the University of North Dakota.

- b. Priority for incoming students registering in Avit 102/142/143 is given as follows: (Refer to Table 1)

NOTE: The following registration priority for incoming students will be used until the applicable sections of Avit 102/142/143 are full. Students who are eligible to register for a section of Avit 102/142/143 after all sections are full will be placed on a waitlist in order of deposit date.

NOTE: Students must have declared one of the following majors in order to be eligible to take Avit 102/142/143/220 during the first fall semester of attendance at the University of North Dakota: Commercial Aviation or Unmanned Aircraft Systems. Other majors and concentrations may take Avit 102 only after completing 24 credits at the University of North Dakota as long as they have a 2.6 cumulative and institutional GPA.

NOTE: Aviation Management students are not authorized to fly during their first academic year at UND. This includes students who come to UND with their Private Pilot certificate.

NOTE: Aviation Management students taking only the Dispatch Track are not authorized to conduct flight training unless double majoring in a major that requires flight training.

1. Incoming first-year students who have reached their 25th birthday by the first day of the respective semester and transfer students who have a minimum GPA of 2.6 will be eligible to register in Avit 102/142/143. Students within this group will be prioritized based on the date of their deposit to the University of North Dakota.

UNCONTROLLED COPY WHEN DOWNLOADED OR PRINTED

CHECK THE MASTER LIST TO VERIFY THAT THIS IS THE CORRECT REVISION BEFORE USE

2. Incoming first-year students will be considered eligible to register into the first semester of Avit 102/142/143 if the High School GPA is at or above a minimum threshold established by the Department Chair according to capacity and enrollment demand. Students within this group will be prioritized based on the date of their deposit to the University of North Dakota.
3. Incoming, first-year students who have an unweighted High School GPA greater than 2.5 but less than the minimum threshold established by the Department Chair will not be eligible to register for Avit 102/142/143 during the first fall semester of attendance at the University of North Dakota. In order to be eligible to register, these students must complete at least 12 credits with a minimum 2.6 cumulative and institutional GPA at the University of North Dakota.
4. Incoming, first-year students who have an unweighted High School GPA of 2.5 or less will not be eligible to register in Avit 102/142/143. In order to be eligible to register, these students will need to complete at least 24 credits maintaining at least a 2.6 cumulative and institutional GPA at the University of North Dakota. Students in this category are encouraged to take AVIT 100, AVIT 103, AVIT 126, ATSC 110/ATSC 110L along with any suggested essential studies courses.

NOTE: Students who are eligible for Avit 102 or Avit 220 registration may choose to defer to a later semester however, these students must maintain least a 2.6 cumulative and institutional GPA in order to be eligible to register in Avit 102 or Avit 220 in a later semester.

NOTE: High School GPA will not be rounded (ex. $2.99 < 3.0$).

2/2/2026

Table 1. Summary of Avit 102 Incoming Student Registration Priority

NOTE: The following registration priority for incoming students will be used until the applicable sections of Avit 102/142/143 are full. Students who are eligible to register for a section of Avit 102/142/143 after all sections are full will be placed on a waitlist in order of deposit date.

Registration Priority	Qualifications	Eligibility Notes
1	A student who has reached their 25 th birthday by the first day of the respective semester OR a transfer student with a college GPA ≥ 2.6	Eligible for registration in Avit 102
2	A first-year UND student with an unweighted High School GPA $\geq$ threshold established by the Department Chair (3.5 Fall 2022)	Eligible for registration in Fall Avit 102 but priority will be based on capacity and enrollment trends. A threshold GPA will be set each fall semester. (3.5 Fall 2022) Eligible for registration in Avit 102
3	A first-year UND student with an unweighted High School GPA > 2.5 but $<$ threshold established by the Department Chair	Must complete at least 12 credits with at least a 2.6 cumulative and institutional GPA
4	A first-year UND student with an unweighted High School GPA ≤ 2.5	Must complete at least 24 credits with at least a 2.6 cumulative and institutional GPA

- c. Students who are admitted to UND who are working towards their Private Pilot's Certificate will be required to have their FAA Private Pilot Certificate completed by August 1 of the year they plan to attend UND.
 1. If not done with their flight training by August 1, they have two options:
 1. They can stop training and take Avit 102 in its entirety.
 2. They can defer starting at UND until Spring of the following year. This means taking no classes at UND for the Fall semester.

UNCONTROLLED COPY WHEN DOWNLOADED OR PRINTED

CHECK THE MASTER LIST TO VERIFY THAT THIS IS THE CORRECT REVISION BEFORE USE

- a. They then have until December 1st to obtain their private pilot certificate.
- 2. If a student chooses to continue their flight training after August 1st and the start of the Fall semester and decides to enroll in courses in the Fall, they are required to take Avit 102 and complete all flight lessons in accordance with the Training Course Outline.
- d. Students who come to UND with their FAA Private Pilot Certificate shall abide by the Enrolling in Aviation Courses with Prior Aeronautical Experience policy and start their flight course with Avit 220 instead of Avit 102.
 - 1. Those arriving with their Private Pilot Certificate or will be obtaining their Private Pilot Certificate outside of UND will not be eligible to take Avit 102.
 - 2. If a student elects to take Avit 102, they are required to complete all associated flight lessons regardless of certification status before they can be issued a grade as the flight training component is part of the academic grade.
 - 3. Avit 220 registration is handled on a first-come, first-serve basis based on the submission date of the Private Pilot and FAA Medical certificates.
- e. Students may **only** register in **one** manned airplane flight course at a time with the following exceptions: Avit 324, Avit 386, Avit 389, and Avit 399 (specifically the Seaplane Rating Course) can be taken concurrently with other flight courses. Refer to the UAS Flight Course Policies for details on taking concurrent UAS flight courses.
- f. All airplane flight lessons must be completed within 12 calendar months of the first day of class indicated in Campus Connection. All flight lessons that were previously completed will be carried forward into the next semester.
- g. Registration for all helicopter flight courses (ground school and flight labs) is done through Campus Connection. Helicopter students may register in a helicopter flight lab after the last day to add until the last day to drop – with permission from the Helicopter Chief Flight Instructor, Assistant Chair of Academics, or a designee. Helicopter students may register in more than one flight course at a time (dependent on the student's intended course of training and current flight course) with permission of the Helicopter Chief Instructor or designee.

UNCONTROLLED COPY WHEN DOWNLOADED OR PRINTED

CHECK THE MASTER LIST TO VERIFY THAT THIS IS THE CORRECT REVISION BEFORE USE

4. Academic Standards Necessary to Pass a Flight Course

- a. To satisfy course requirements, students must earn at least an academic grade of “C” in each flight course. To earn a “C” overall requires a minimum composite score of at least 76%. The composite score will include a combination of block exam scores, assignments, projects, participation points, and the final exam. If a student receives an academic grade of “D” or “F”, the academic portion of the course must be repeated prior to registering in the subsequent course. All flight lessons that were previously completed will be carried forward into the next semester.

5. Exams

- a. Students who earn less than a 76% on any block exam, must retake that exam prior to taking the subsequent exam. In addition, a student’s first-attempt block exam average (excluding the final exam) must be at least 76% by the end of the course, otherwise the entire course must be retaken. A failure of the final exam will constitute retaking the academic ground school. Under exceptional circumstances, the academic instructor may allow a retake of the final exam.

6. Review Boards

- a. *Description.* Review Boards are conducted as a means of helping students demonstrating substandard academic or flight performance. Review Boards are not meant to be punitive, but are used as a means to identify and assess the factors contributing to substandard performance and offer possible solutions.
- b. *When Initiated.* Review Boards are prompted by any pattern of substandard performance which may include (but is not limited to) the following:
 1. Scoring below a 76% two or more times on the same block exam
 2. Repeated class absence or tardiness
 3. Inadequate flight activity
 4. Poor flight progress (multiple attempts of the same lesson or abnormally high flight time)
 5. Failing the same stage check twice
 6. Concerns regarding flight safety and/or unprofessional behavior
- c. *Who Can Initiate.* Review Boards can be initiated by academic instructor, flight instructor, Assistant Chair of General Academics, Chief Ground Instructor, Chief Flight Instructor, or Assistant Chief Flight Instructor.
- d. *Board Composition.* The Assistant Chair of General Academics, Chief Ground Instructor, Chief Flight Instructor, or the Assistant Chief Flight Instructor will

UNCONTROLLED COPY WHEN DOWNLOADED OR PRINTED

CHECK THE MASTER LIST TO VERIFY THAT THIS IS THE CORRECT REVISION BEFORE USE

be responsible for selecting and coordinating the appropriate participants to engage in the review process. Board makeup will vary depending upon the situation. It is important that appropriate personnel participate in order to accurately identify the cause and corrective action for a student's substandard performance. Review Boards initiated for academic reasons may just include the student and the academic instructor or faculty member. In other cases, Review Boards may include the student, the flight instructor, the flight instructor's primary supervisor, and other representatives from both academic and flight operations.

- e. *Documentation.* Review Board proceedings will be documented by entering a Pilot Manager comment in AIMS.
- f. *Continued Substandard Performance.* Following the Review Board, if substandard performance continues, the Student Disposition Policy may be initiated. Coordination between academic instructor or faculty member and Assistant Chief Flight Instructor or the Assistant Chair of General Academics will determine if a Student Disposition Committee meeting is warranted.

7. Attendance

- a. Students are required to attend class in order to meet FAR Part 141 certification and other contractual requirements. Attendance will be taken for each class period. Each missed class period must be made up with either the academic instructor or a flight instructor. The instructor who conducts the make up will certify coverage of the missed material by completing a Ground Training Certification form. These forms must be completed prior to the next, scheduled block exam and will be maintained by the academic instructor or faculty member in their class records file. These files must be kept for the length of time specified by the UND records retention policy.

8. Satisfactory Progress (SP) Grades – Airplane Flight Courses

- a. Students are expected to complete all flight training associated with an academic flight course during the semester in which the class was taken.
- b. If extenuating circumstances prevent a student from completing the flight requirements on time, and the student has demonstrated satisfactory progress, the academic instructor or faculty member (in coordination with the Assistant Chief Flight Instructor assigned to the course) may assign a grade of Satisfactory Progress (SP).
- c. Students assigned a Satisfactory Progress (SP) must finish the flight training associated with the academic flight course within 12 calendar months from the first day of class shown in Campus Connection. Failure to complete all

UNCONTROLLED COPY WHEN DOWNLOADED OR PRINTED

CHECK THE MASTER LIST TO VERIFY THAT THIS IS THE CORRECT REVISION BEFORE USE

course requirements within this timeframe will result in an academic grade of “F” which will require the student to retake the entire academic course.

9. Satisfactory Progress (SP) Grades – Helicopter Flight Courses

- a. Students are expected to complete all flight training associated with a helicopter flight lab within the timeline established by the syllabus for that flight lab.
- b. If extenuating circumstances prevent a student from completing the flight requirements on time and the student has demonstrated satisfactory progress, the Helicopter Chief Flight Instructor (in coordination with the Assistant Chair of General Academics) may assign a grade of Satisfactory Progress (SP).
- c. Failure to complete all course requirements within this timeframe will result in a failing grade for the flight course, which will require the student to retake the flight course.

10. Transferring Between Avit 102 and Avit 101

- a. Students may transfer from the Avit 102: Private Pilot Training Course Outline to the Avit 101: Survey of Flight Training Course Outline with the following restrictions:
 1. Coordination must be made with the Chief Ground Instructor or the Assistant Chair of Academics and the Avit 102 Course Manager.
 2. Students who have completed Lesson 23 of the Avit 102 Training Course Outline will not be required to conduct any additional training in the Avit 101 Training Course Outline
 3. Students who have not completed Lesson 23 in the Avit 102 Training Course Outline will be provided with a list of flight lessons to complete in the Avit 101 Training Course Outline.
 4. Students registered in Avit 101 will still be required to complete the associated flight training within 12 calendar months of the first day of class indicated in Campus Connection.
 5. Students who transfer from Avit 102 to Avit 101 will not be permitted to return to Avit 102.

UNCONTROLLED COPY WHEN DOWNLOADED OR PRINTED

CHECK THE MASTER LIST TO VERIFY THAT THIS IS THE CORRECT REVISION BEFORE USE
